

Cyril Fassiau

Développeur Web & Front-End

0472/84.94.74

<https://portfolio.fassiau-dev.com>

[Linkedin](#)

A developer who has switched careers after several years in audiovisual production and is accustomed to multidisciplinary collaboration, I have experience in website development using HTML, CSS, JavaScript and React, and am continuing to learn new skills alongside my work.

Work experience

----- Freelance Web Developer - Current

Fassiau Polymer Consulting

- Creation of a professional showcase website
- HTML/CSS integration

Evasia Travel Planner : work in progress

- Full-stack development of the website using JavaScript, HTML and CSS. Future integration of React
- Front-end design and back-end planning

3D Artist – 2018 to present

Tintinimagination SA (Moulinsart)

Audiovisual production & 3D animation

- Production of short-form 3D animations published every two months: project management and end-to-end production (3D modelling, animation, video editing, compositing and sound design) – Significant increase in sales and audience figures.
- Involvement in audiovisual and interactive R&D projects: development using Unreal Engine, virtual reality applications, etc.

Digital & Web Management

- Management and curation of the official Tintin and Hergé Museum social media accounts: Facebook, LinkedIn, X and Instagram.
- Administration of the Hergé Museum's WordPress website (updates, optimisation and content management).
- Development of web features for tintin.com using HTML, CSS and JavaScript (self-taught).

Intellectual Property & Cross-functional Projects

- Managing and monitoring intellectual property cases in collaboration with the legal department.
- Designing internal tools and databases for the organisation and management of IP assets.

3D Artist Intern – 2017 to 2018

Vigo Universal

- Development of a space flight simulation for the Euro Space Centre using Unity and C++.
- Photogrammetry and sculpting of a statue for the 'Tuniques Bleues' roundabout in Sambreville

Training

Learn React - 2026

Scrimba Certification

Développement web full-stack – En cours

OpenClassroom - Web Developer Full-Stack training

HTML - CSS - JavaScript - React - Git

Bachelor's degree in 3D animation – 2014 to 2018

Haute Ecole Albert Jacquard - Bachelier en Techniques Infographiques - Films d'animation 3D

Final-year project: the short film “La petite Odyssée” was selected as one of the jury’s favourites and screened at the Caméo cinema in Namur.
